INTRODUCTION

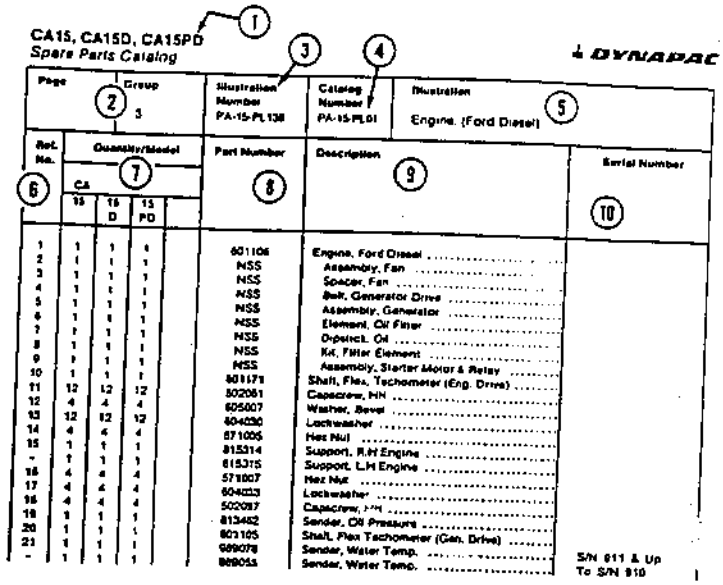

1. This catalog provides information for identifying and ordering all replaceable parts and assemblies for the DYNAPAC Model CA-15 Vibratory Roller Compactor, manufactured by Dynapac Mfg. Inc., Kelly Place, Stanhope, New Jersey 07874, U.S.A.

2. Using the Numerical Index.

   In back of the catalog you will find a Numerical Index. When the Part Number is known, refer to the index and note the page number. Turn to the page for specific information about the part and the illustration for a visual description and application.

3. Using the catalog

   This catalog is based on a group system which will be common to all new Dynapac Parts Catalogs. It starts with a Table of Contents followed by the individual groups, and ends with the Numerical Index. The Table of Contents shows the groups included in the catalog and each group in turn begins with a Table of Contents that describes the pages included in that group. The pages within the groups are made up of a parts list page on the left and an illustration page on the right. Illustrated below is an explanation of how the parts list page works.

(1) The product, the Part Numbers of which are shown in the section.

(2) Group and Page Numbers

(3) Illustration Number. This number is also shown in the lower right hand corner of the illustration.

(4) Spare Parts Catalog Number and Issue Number.

(5) Name of Group Page and Illustration.

(6) Ref. No. corresponds to number on illustration.

(7) Quantity columns show number of parts required for the Ref. No. listed under the Model column.

(8) Part Number to be used when placing an order.

(9) Decription column describes parts listed on page. Parts which are indented in the Description column are part of the preceding assembly or subassembly. The Quantity column indicates the quantity of each part required on a machine except when the parts are indented, in which case the quantity shown is the number required for the preceding assembly or subassembly.

(10) Serial Number column denotes serial number information.

4. Terms and Abbreviations Used.

   A. Right hand and left hand (R.H., L.H.) sides of the compactor are identified as viewed when sitting in the operator's seat with the engine behind and facing in the direction of forward travel. See illustration.

   B. Bolts and screws, etc. which are hex head and/or heat treated are indicated as HH and HT respectively.

   C. NSS identifies parts which are "not sold seperately."

   D. A/R identifies parts to be ordered in quantities "as required."

   E. The abbreviation S/N stands for machine serial number.

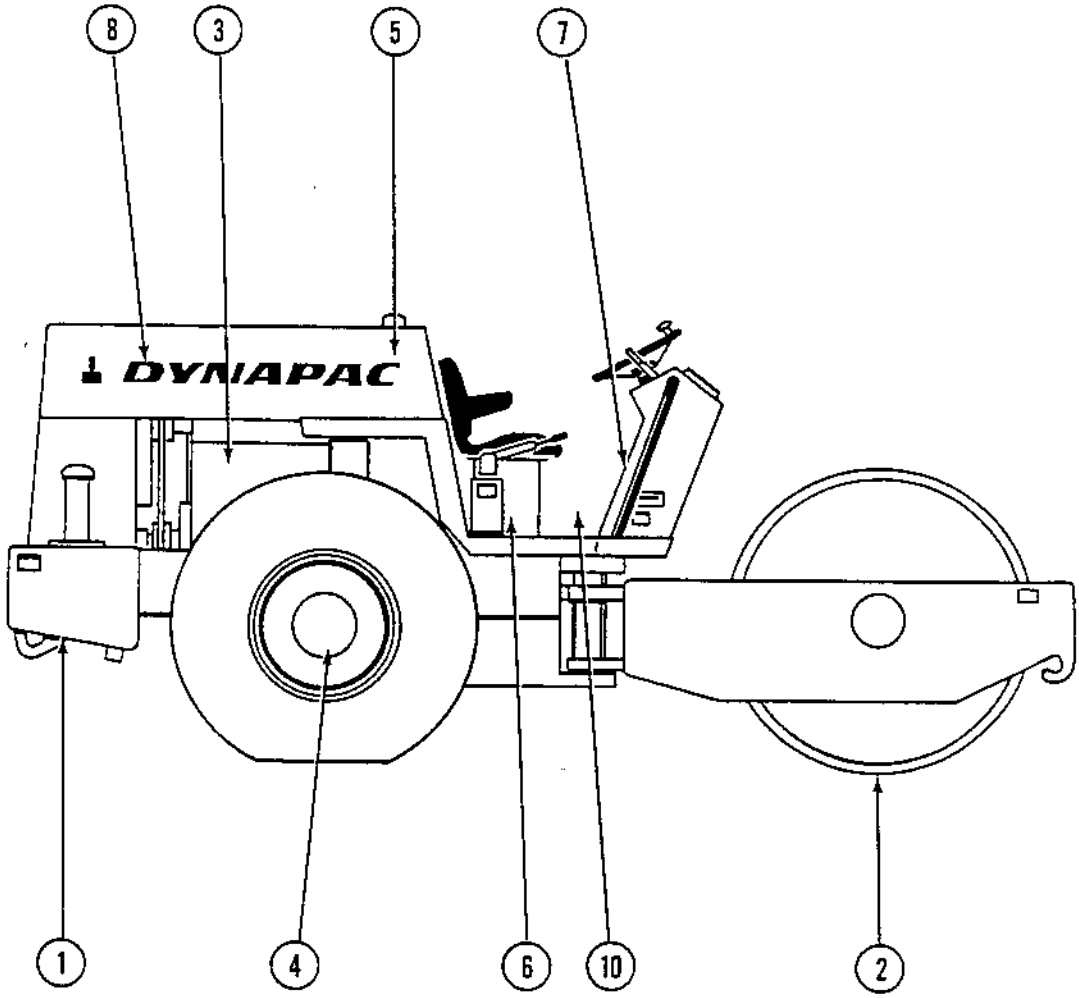

5. Ordering Parts

   All orders to your DYNAPAC Dealer for parts should include the model and serial numbers of the compactor, the complete description, correct part number, quantity required, method of shipment and shipping address. When ordering parts for complete vendor units or subassemblies, please include all data appearing on the identification plate.

Dynapac Ltd.

TO: ALL DYNAPAC "B" DEALERS

ATT: PARTS MANAGER / SERVICE MANAGER

FROM: MIKE CADDEN, PARTS MANAGER

DATE: NOVEMBER 16, 1976. REVISION OF BULLETIN # 12 DATED APRIL 1, 1976.

SUBJECT: DRUM DRIVE MOTOR
MODELS CA15, CA25, CC42

THERE HAS BEEN A DESIGN CHANGE ON THE STAFFA DRUM DRIVE MOTORS ON THE ABOVE MODELS. THE ORIGINAL MOTOR WAS LISTED AS PART# 801063. THE NEW MOTOR IS PART #801101. THE TWO ARE NOT INTERCHANGEABLE DUE TO THE HOSE CONNECTIONS AT THE MOTOR. SHOULD A MOTOR CHANGE BE REQUIRED, WE SUGGEST THE FOLLOWING:

1. WE HAVE A SUPPLY OF REBUILT # 801063 MOTORS IN STOCK AND RECOMMEND AS AFIRST CHOICE FOR A REPLACEMENT. THIS DOES NOT ENTAIL THE PURCHASE OF ADDITIONAL PARTS.

2. IF A COMPLETE CHANGEOVER IS DESIRED, THE CHART BELOW OUTLINES THE PARTS REQUIRED. THE SERIAL NUMBER CUT-OFF OF THE ORIGINAL # 801063 MOTOR IS 15CA441, 25CA1158 AND 42CC309.

PART #	DESCRIPTION	MODEL CA15 QUANTITY	MODEL CA25 QUANTITY	MODEL CC42 QUANTITY

-	1	1			423323	Spindle (See Note**)	
-	1	1			423315	Carrier, Sub-Assembly	
18	1	1			423319	Carrier	
-	1	1			928151	Kit, Carrier Repair	
19	A/R	A/R			893451	*Spacer (.721/.720)	
-	A/R	A/R			893452	*Spacer (.726/.725)	
-	A/R	A/R			423336	*Spacer (.809/.808)	

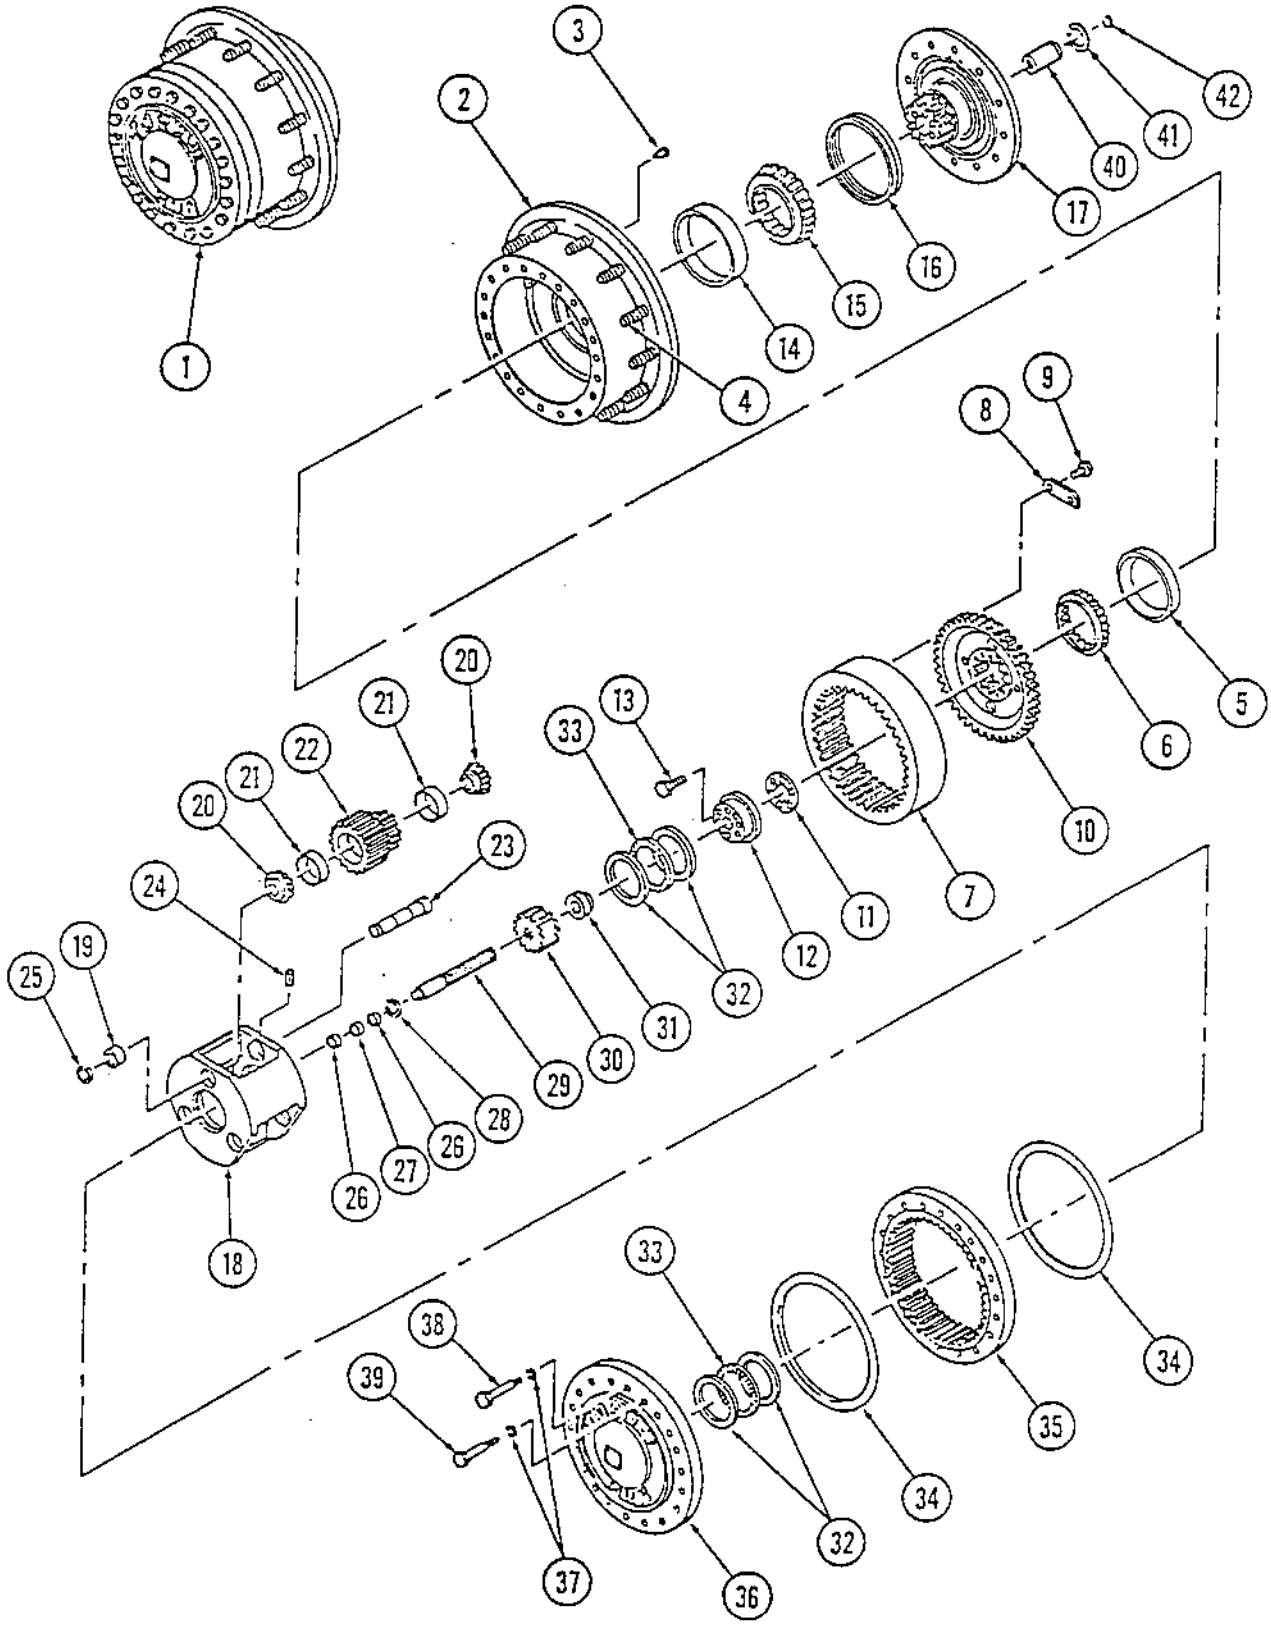

*Select Spacer for correct fit, use one Spacer per Cluster Gear.

**Note: Check Model No. Tag on front of Hub. If first 4 digits of Model No. are R7C2 use parts marked with **'s. If you need P/N 423327 Hub or 423323 Spindle, an 801150 Rebuilt Hub Assy. should be ordered due to Mfg.'s modifications. P/N 893446 is no longer available, and is replaced by 423470 Hub Sub-Assy. which will update your Hub. Assy. to a R7C2 Tag Level.

SUBJECT: Rigid Air Intake Kits
Models CA-15, CA-25, CC-50

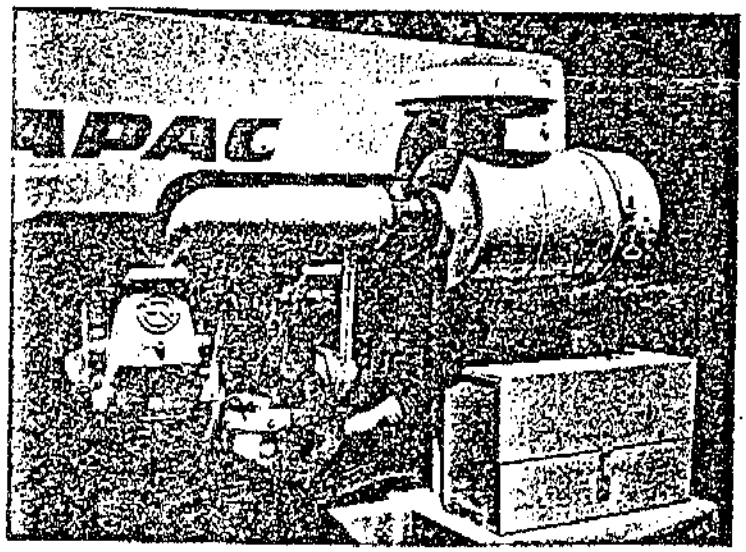

In our current production of the above models which utilize Caterpillar and GM engines, we have discontinued the use of the #63SB-4" flexible hose air intake and are now using systems designed with solid rubber elbows and steel tubing. This provides more rigidity and safety for the engine air intake. The serial number breakdown of the start of these new systems are as as follows:

Model CA-15	GM	S/N 745 & 748 & Up
Model CA-25	GM	S/N 1550 & Up
Model CA-25	Cat	S/N 1531 to 1536, 1538 & Up
Model CC-50	Cat	S/N 316 & Up

These new systems are now set up in kit form for field installation as noted below and are comprised of all tubes, elbows and clamps necessary for each model.

Model	Engine	Kit No.	List Price
CA-15	GM	~~875578~~	
CA-25	GM	~~826264~~	
CA-25	Cat	~~826263~~	
CC-50	Cat	~~850641~~	

KITS NO LONGER AVAILABLE. YOU MUST ORDER ALL PARTS ON P. 64 EXCEPT AIR CLEANER.

Hydraulic Systems

The roller hydraulic system can be divided into three systems:

- Traction System
- Steering System
- Vibration System

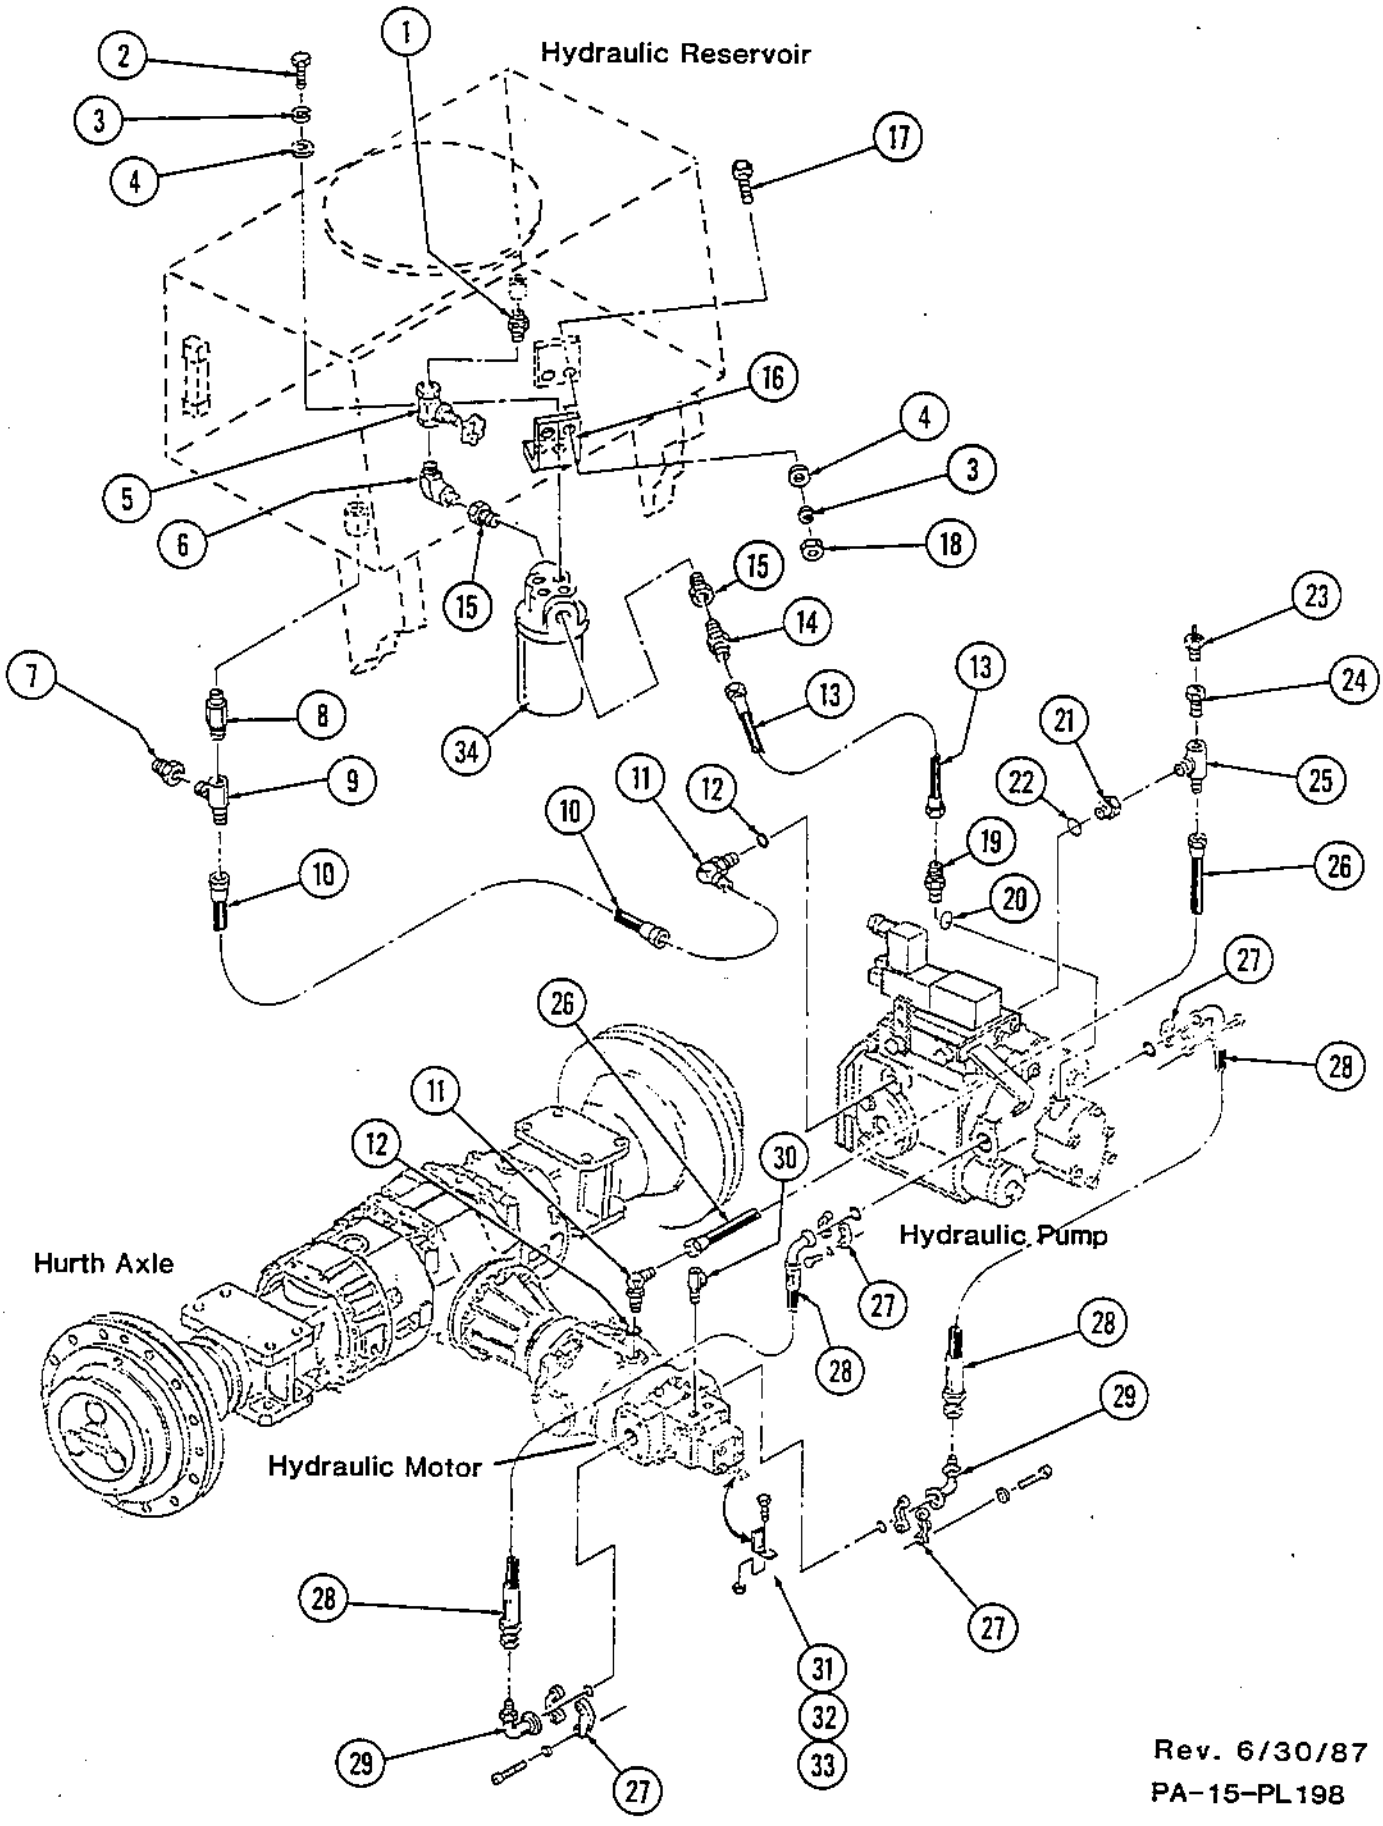

1. Hydraulic Tank
2. Shut-off Valve
3. Suction Filter
4. Traction System Pump
5. Traction Motor
6. Steering Valve
7. Steering Cylinder
8. Relief Valve
9. Vibration Motor
10. Steering and Vibration Pump
11. Vibration Control Valve
12. Hydraulic Oil Cooler
13. By-Pass Check Valve

A. Traction System
B. Steering System
C. Vibration System
